DESCRIPTION		PART NO	UPC
Fish Ruler 36" Blue Border	<u>NEW!</u>	SB FS50BB	724416 025005

Longliner™, Patented

NEW!

Longliner™ is a strike-release trolling device that allows the weight to be positioned anywhere on the fishing line. When a fish strikes, the Longliner™ trip mechanism releases and the Longliner™ and sinker weight will slide down the line to a swivel stop near enough to the lure to allow the fish to be reeled in. Longliner™ is suitable for lines and leaders from 4# to 60# and braid up to 125#, and weights up to 16 oz. The first picture shows the device in the trolling (locked) position. The second picture shows the device in the released (fish fighting) position. Longliner™ is the greatest innovation in troll fishing in years. Some folks call it a "tackle box downrigger". It does not require a larger boat, can be used in any boat, does not require a big expenditure, and does not require installation of a "mechanical monster" called a downrigger. Simple, easy adjustments, comes with complete illustrated instructions. Allows the trolling angler to achieve perfect, repeatable depth control.

DESCRIPTION		PART NO	UPC

Jig, Reel Hunter

Featuring extremely large eyes to help focus the strike, prismatic sides and a lifelike profile, the Reel Hunter is stern heavy to avoid fouling when casting, and when jigging, falls through the water column tail first. Perfect for fishing in the surf, from a pier or a boat, the Reel Hunter casts like a bullet and has the action of a real baitfish.

Tasmanian Devil®

Tasmanian Devil® lures are a unique Australian product designed for trolling, casting, or jigging in fresh or salt water. The unique lure action is due to a revolutionary winged design that causes the lure to swim in an irregular manner, darting and diving, simulating the movement of a wounded fish. Comes in five sizes, but not all sizes are available in all colors. Check your brochure or check with your Tom Coss Fishing Sales Rep.

Jig Head, Scrounger

NEW!

The Scrounger creates vibration and an incredible, realistic action. It works on all fresh and saltwater gamefish and is easy to fish. Practically snag-free, it can be cast or trolled. Super long refers to the hook shank length. Endorsed by Aaron Martens, this is the reintroduction of a classic that has been off the market, and the only version that is endorsed by Aaron Martens.

Weight, Bullet, E-Z Weights™, Tungsten

E-Z Weights™
Tungsten

High quality tungsten bullet weights are machined with smooth bores to prevent chafing line. Eliminates the problem of sleeves coming out. Larger sizes are well suited for "punching". Check these prices against the competition.

**Weight, Dropshot, E-Z Drops™,
Tungsten**

E-Z Drops™
Tungsten

NEW!

The most versatile dropshot weight design is now available in tungsten. The difference with our product is that the weight is free to spin on both ends of the swivel. One end is not buried in the weight as with other designs. Experienced anglers know that some applications favor tungsten while other applications favor lead. These tungsten dropshot weights are the perfect companion for the fine Quickdrops™ lead dropshot weights we have carried for years.
